

The Triple Obligation

NIS2 + KRITIS-Dachgesetz + TISAX — one segmentation answer

LAYER 1

Own NIS2 Obligation

§30 BSIG — direct obligation as important or essential entity

Example: Deadline: BSI audit from 2026

LAYER 2

KRITIS Customer Cascade

KRITIS-Dachgesetz (2025) — supplier security audits by KRITIS operators

Example: Doors in fire stations. Valves in water plants. Software in substations.

LAYER 3

OEM / TISAX Cascade

TISAX 6.0 (May 2024) — automotive OEM supplier security requirements

Example: VW, BMW, Mercedes, Stellantis require documented segmentation

One Platform. Three Audits Satisfied.

Akamai Guardicore Segmentation, delivered by Axians IT Security Services, produces the segmentation maps, enforcement logs, and compliance documentation that satisfies all three audit tracks simultaneously.

152%	ROI	Forrester TEI for comparable manufacturer
6 months	Payback	From deployment to positive return
€9.6M	3-year benefit	Composite €1B/5,000-emp manufacturer
€0	Production disruption	Agentless OT deployment
