

Account Brief: Hörmann KG

Existing Axians customer — cross-portfolio opportunity

axians

part of VINCI Energies

Company	Hörmann KG (Steinhagen, NRW)
HQ	Steinhagen, North Rhine-Westphalia (near Bielefeld)
Revenue	>€1 billion (privately held, family-owned, 4th generation)
Employees	>6,000 worldwide; 40+ specialized factories
Axians relationship	Active since 2014 — Axians NEO Solutions & Technology (SAP service management, C/4HANA, m

Why This Account. Why Now.

- NIS2 own obligation + KRITIS-Dachgesetz (doors in fire stations, utilities) + TISAX (automotive OEM plants) — triple obligation
- 2020 BiSecur Gateway critical IoT vulnerability disclosure — SEC Consult; production halted, portal disabled. Institutional memory of cyber risk.
- KUKA robotics in tech stack + 40+ factories = flat-but-now-connected OT network
- SAP S/4HANA migration underway = highest-risk window for lateral movement
- Axians already trusted at group level (11+ years) — cross-portfolio introduction is the fastest possible path

The Narrative

Axians has been helping Hörmann's service operations run smoothly since 2014. The SAP, mobile suite, and cloud projects give us trust that no vendor can buy. Now, as NIS2 activates and their CISO has a mandate to document network segmentation, an introduction from Alexandra Kempe (Hörmann VKG) to Rian Redinger (CISO) is the fastest-closing deal in the DACH Guardicore pipeline.

Primary Contact

Name	Rian Redinger
Title	Chief Information Security Officer, Hörmann Deutschland (Steinhagen)

The Ask

Identify the Axians NEO account manager who owns the Hörmann VKG relationship. Arrange a 15-minute internal Axians cross-portfolio brief with Alain de Pauw's IT Security team. Request a joint introduction call — Axians NEO + Axians IT Security — with Alexandra Kempe as the bridge. Goal: a 60-minute NIS2 segmentation scoping session with Rian Redinger within 6 weeks.

Prepared by Axians IT Security Services in partnership with Akamai. All intelligence from public sources. For internal use only.
